# *Delphi Vega2*

# *EDI SUPPLEMENTARY DOCUMENT For*

## *Delphi Delco Electronics Systems Singapore Plant*

# *Delivery Address Location*

## *Delphi DRAFT*

Delphi will not be sending address information in the DELFOR or DELJIT transactions.  The ship-to information sent in these transactions must be cross referenced to this document, which provides the full address information for shipping.

The data contained in the first column, Plant Code, represents the value which will be sent in NAD-3039.  The second column, Description, is the plant address where the materials must be shipped.  The third column, Plant DUNS #, is for reference only.

The NAD-3039 value, or plant code, must be returned in the DESADV as it appears in the DELFOR and DELJIT.
