IEA*1*000001992~

Notes:

AK501 - Transaction Set Acknowledgment Code

A - Indicates this was accepted

E - Indicates that this was accepted with errors

R - Indicates that this was rejected

AK901 - Functional Group Acknowledgment Code

AK902 - Number of Transaction Set included in the group. This number should equal the number of AK2/AK5 sets in this 997.

AK903 - Number of received Transaction Sets. This number should equal the AK902.

AK904 - Number of accepted Transaction Sets.

We do not accept 997s at the group level; it will cause the document to stay unacknowledged in The Home Depot's system.
