Important Notes:

For small package shipments, the following ASN can be provided.

1. A single (1) ASN containing multiple POs shipped to a single location.
2. A single (1) ASN for each PO shipped to a single location (example provided above).
3. A single (1) ASN for each carrier tracking/small package tracking# provided.

Carrier tracking/small package tracking#(s) are provided in the Order (PO) loop, not at an Item loop level.
