

Section IX

(Version 4010VICS)

856 Ship Notice/Manifest

UCC-128 Carton Label

Label Requirements:

- A point of origin address (shipping point address).
- An ultimate destination address (NWL store).
- Bill of Lading Number
- Carrier SCAC Code
- Carrier Pro Number
- An ultimate destination zip code in both human readable and barcode formats
- A NWL PO # and NWL vendor # in human readable format, followed by the NWL PO number in barcode format
- For single UPC cartons, a human readable Quantity, Item Description and UPC number. Optionally an SCC-14 Barcode.
- For multiple UPC cartons, Item Description must be "PNP" or "Pick and Pack". QTY and UPC must be blank. If an SCC-14 barcode is used the Packaging Indicator must indicate "Mixed Pack".
- A carrier facility code representing the facility associated with the NWL store number. NWL has currently suspended the use of the carrier facility codes (RFTC's). This field should be left blank.
- A large font NWL store number to facilitate the delivery from the carrier facility to the correct ultimate destination in a non-scanning environment.
- An SSCC-18 carton identifier in both human readable and barcode format. The SSCC-18 must contain either a UCC assigned member number or the NWL assigned number as outlined below in the SSCC-18 detailed requirements.
