BROKERS/MANUFACTURER REPRESENTATIVES AND EDI TRANSMISSIONS

All EDI transmissions originated by Weis Markets, Inc. will be sent directly to the manufacturer. As a courtesy, it is the manufacturer's responsibility to communicate our order information to the appropriate broker or manufacturer representative. Paper copies will be sent to the manufacturer, not the broker, during the parallel-testing phase of the EDI implementation process.

The manufacturer should keep its representatives apprised of the EDI process to eliminate the chance of processing duplicate orders.
